

WELCOME

- 🌿🌍 We acknowledge the Divine Creator of the land.
- 🌿🌍 We respect and honour First Nations elders past present and future.
- 🌿🌍 We walk upon this land, as custodians and humble stewards.
- 🌿🌍 We dedicate this land to the Creator's original design.

We acknowledge the stories, traditions and living cultures of First Nations peoples on this land and commit to building a brighter future together.

The Land of the Creator's Embrace

Here, where the mountains meet the sky, we recognise the sacred design of the Creator, whose presence infuses every rock, every blade of grass, and every tree. We dedicate this land to return to the Creator's original design; to walk in gentle custodianship, humble partnership and selfless love.

The Dreaming of Transformation

Our vision is what we call the Eden mandate. To create communities of healing; where wounded hearts find solace, and broken souls are restored. A place where our food is medicine, and the land is honoured as sacred.

Our culture reflects the Creator's love, light and life. Our expression is communal, organic, musical, artistic and regenerative. We dream of a new heaven and a new earth.

Who Are We?

We operate in COMMUNITY. We believe in the family of humanity, where there is no difference in race, gender, or social status. We live together, work together for the common good and benefit of all.

Community Hubs

Our farming is REGENERATIVE; where land management is a sacred process of custodianship and care of our Creator's handiwork. We leave the land nourished and regenerated after each harvest.

Regenerative Farming

Our food is MEDICINE, providing organic, chemical free and wholefood nourishment to our communities.

Food as Medicine

Our economy is SOCIAL; where the profits of community businesses are pooled into a Community Trust that provides for the cost of living for participating community volunteers.

Social Business

Belong with us

You are welcome to journey with us; whether as a short term stay, or a longer term resident. We offer a two week trial, followed by an open discussion with community members to discuss the opportunity of becoming a community volunteer.

What to Expect

Sustainable Living

Organic and bioactive gardens and food forests
Dry compost toilets
Off-grid living
Rainwater

Community Volunteering

Cooking and cleaning
Land care
Regenerative farming
Social business'

Spiritual Care

We partner with The Way Int, to provide holistic pastoral care; spiritual, emotional and social healing and support

The Land is Sacred

Food & Cooking

We believe in family. Food is provided in your weekly suggested donation and we eat dinner together. You will be invited to participate in a roster to serve the community through assisting the designated chefs. We provide vegetarian and animal protein options in our weekly menu's. We typically serve 3 vegetarian meals and 4 animal protein meals per week. We source only organic or grass fed, hormone free animal protein.

Water & Cleaning

Water is sacred and to be managed with great care and efficiency. We use rainwater and provide filtered drinking water. We re-use water for washing dishes. Please become proficient in the community's housekeeping processes. We only use grey water safe soaps or detergents.

Rubbish & Composting

We work hard to avoid modern wasteful practices that are detrimental to the environment. Avoid single use plastic packaging when purchasing community and individual items.

We compost all food scraps, paper and cardboard | we recycle everything we can | we re-use everything we can

Our Team

Kiwa Stevenson

Kiwa is the community founder, who serves the community in general management of the community needs

Amber De Vries

Amber is a community co-founder, who serves the community with pastoral care and the administration of community needs

Mili Stevenson

Mili is a community co-founder, who serves the community with pastoral care and administration of community needs
